About us

ICMR-National Institute of Epidemiology (ICMR-NIE), Chennai is one of the permanent institutions of the ICMR and a flagship organization for epidemiology, public health and biostatistics in India.

ICMR-NIE houses the ICMR School of Public Health to conduct public health capacity building programmes and public health research.

The Institute has been conducting Field Epidemiology Training Programmes (FETPs) meant to strengthen public health workforce in India since 2001.

FETP is aimed at strengthening health services through training of middle level medical officers in government health departments with a 'learning-by-doing' approach to build a cadre of trained epidemiologists who are able to respond to priority public health events in the country.
